Introducing the Sellwood Ceiling Cupboard, the next innovation in attic storage.

The Sellwood Ceiling Cupboard creates attic storage space where a traditional attic ladder may not be suitable. This includes low roofs or where equipment in the roof makes attic storage difficult. It is also perfect for those not wanting to climb into their attic.

Model	Opening Required	Ceiling Height	Max Load
SCC	1450mm x 650mm	up to 2550mm	20kg

- Storage bin not supplied
- Sistema Storage 90L plastic bin recommended
