

Retractable Ladder (Commercial) Technical Data Sheet

Description

The Sellwood range of heavy duty, commercial Aluminium Retractable Ladders provide safe, easy access onto roofs, mezzanine floors and platform areas at height, where the landing area below needs to be kept clear of obstruction. The unique spring and stay system allows the ladders to be easily pulled down from the ceiling and folded back up when not in use. The heavy duty aluminium ladder and steel componentry allow for longevity in a commercial environment. The standard Sellwood Aluminium Retractable Ladder range is suitable for heights up to 3.6 meters.

Retractable Ladder (Commercial) Range

Model	Ceiling Height	Opening Required	Weight
A25	2300mm – 2450mm	1400mm x 650mm	35Kg
