

HOW TO LOOK AFTER & USE YOUR SELLWOOD ATTIC LADDER

1. Before climbing, make sure the ladder is fully extended and that there are no gaps between the ladder sections.

2. If your Attic Ladder has not been installed in accordance with the manufacturers installation instructions your warrantee may be void.
3. Lubricate all pivot points on your Sellwood Attic Ladder at least once a year. If your Sellwood Attic Ladder is used more then three times a week, lubricate every 4-5 months.
4. Face the ladder when you are climbing up and down.
5. Do not leave young children unattended while ladder is folded down.
6. If you have any concerns with your Sellwood Attic Ladder, or it is damaged in any way please call 0800 288 427
